

SCHOOL OF REASON

Presents

The Course Immersion Program 2012

***A Twelve Month Teacher Training Program
using the teachings of Dr. Kenneth Wapnick***

The Course Immersion Program prepares teachers of A Course in Miracles. It is designed to give students the education and experience to understand and apply the Course in their own lives and to teach classes if they choose. Carefully selected study materials illuminate complex teachings and accelerate understanding. ***Mentors are assigned to each student to guide and encourage.***

Upon completion of this one-year teacher training you will:

- Be able to read any section of the text, teacher's manual or workbook and understand exactly what is being said
- Internalize the Course's thought system and its unique teachings on non-duality so you can articulate them with conviction
- Readily distinguish the true from the false, the valuable from the valueless and be able to make the better choice
- Represent a real alternative that restores inner peace

Pre- Requisites:

- Recognition of ACIM as your primary spiritual path
- Completion of the Text, Workbook and Manual for Teachers

"Do you want to understand the Course and be able to explain it to others? Would you like to apply the Course's concepts to your life and see real changes in the way you approach the world? Does the idea of studying the Course with the support of like-minded people appeal to you? If so, take the Course Immersion program through the School of Reason. I've experienced all of this and more!" – Paula Staffeldt, student of the CI Program 2011
